

Indexed Table of Contents of the IAEVG Professional Journal Educational and Vocational Guidance Bulletin Issues 33 - 63 (1979 - 1999)

Compiled by Bernhard Jenschke

This table of contents gives an overview of all articles of the Educational and Vocational Guidance Bulletin published from 1979 to 1999. To make it easier for the user to find articles of interest we have organized this table in subject categories. Thus, some articles are listed more than once (in different subject categories). Issues 41-62 are still available from the Secretary General of IAEVG. Single copies of the other articles are available on request. To make it easier to navigate the contents, we have listed only the English titles. The abbreviations in the right column indicate the language of the original article and whether there is an abstract in other languages. In case there is only "E" then there is no abstract in other languages.

Index to abbreviations

E = full version of the article in English	e = English abstract
F = full version of the article in French	f = French abstract
G = full version of the article in German	g = German abstract

Numbers represent the issue/year of publication, e. g. , 41/84 means that the article was published in issue 41, 1984.

Subject Categories
